ABSTRACT

This is the first yearly supplement to the first edition of a bibliography compiled to bring together all the publications in the Colorado State University Libraries which bear the University imprint. The supplement lists an additional 170 citations of print and nonprint materials published by the University in the areas of scholarship, research, and literature. The arrangement is either by author or main entry as they appear in the Colorado State University Libraries' card catalog, followed by date of publication, pagination, and other pertinent data regarding illustrations, portraits, maps, and the physical size of the material. Content notes, descriptive information, and the call number conclude the entry. Name, title, and subject indexes refer the reader directly to the numbered bibliographic entry. (JPF)

INTRODUCTION

Soon after the first edition of the bibliography was issued, a questionnaire was sent out from the CSU Libraries to CSU faculty and administration who had received copies of the bibliography. From the returns of the questionnaire it was determined that a yearly supplement and a new edition every three years was indeed in order. Based on the questionnaire and written requests for copies of the bibliography, this first supplement is encouragingly commenced. It is hoped the bibliography will further prove to be useful for all who would have occasions to resort to it.
